Looking on and waiting

A personal reflection.

IT CAN HAPPEN AT YOUR FACILITY
BE PREPARED!

Emergency Responders
Look at adversity and obstacles as opportunity!
Vision and Mission Statement
Louisa A. Nara, CCEP, CCPSC

VISION
I will be a leader who will Guide, Protect and Serve (GPS).

MISSION
I will strive to improve safety, reduce risk, enhance security, support ethics and provide for a cleaner and healthier environment for the industries I serve, my community, my country and my world.
In order to protect people, property and the environment:

CCPS is committed to bringing the best process safety knowledge and practices to industry, academia, the governments and the public around the world through collective wisdom, tools, training and expertise.

“THE GLOBAL COMMUNITY COMMITTED TO PROCESS SAFETY”
CCPS MISSION

Eliminate process safety incidents, in industries, by:

• Promoting process safety as key societal value & expectation.
• Establishing process safety as foundation for responsible operations.
• Serving as the premier world-wide resource for process safety & development of “state-of-the-art” solutions.
• Fostering knowledge & implementation of process safety.
• Advancing process safety education, technology, culture & management practices.
Leadership Commitment

A **Leader** is one who **KNOWS** THE WAY **GOES** THE WAY & **SHOWS** THE WAY

- John C. Maxwell
Goals for Process Safety
From Leaders Around the World

- Include Process Safety in the evaluation of long term sustainability and profit.
- **Promote Competency assurance / stewardship** – Ensure employees are competent, confident, knowing expectations and individual role.
- Ensure All levels of employees must understand the consequences of their actions.
Goals for Process Safety
From Leaders Around the World

Summary (con’t)

- Link Process Safety and Operational Risk.
- Learn best practices from other industries.
- Share incidents without the fear of legal implications.
- Implement and monitor a robust Management of Change system.
- Align contractors with company expectations and values.
- Focus on partnership – industry, government, societal.
Goals for Process Safety
From Leaders Around the World

Summary (con’t)

- Aging equipment and infrastructures must be maintained or replaced.
- Understand why we are not learning from incidents.
- Manage Organizational Changes.
- Adapt to changes in how people learn (age/culture/etc.).
- Identify and understand how human factors effect process safety performance.
Simple Rules for Great Process Safety

1. Keep it in the pipes / equipment!

2. Keep a sense of Vulnerability!

3. Make a positive impact on Process safety every day!
